What's new at Lily School Paris?

This month we joined a Pen Pals project through an international network of preschools across the world, including: Bright Beginners preschool (Poland), Frogner pre-school (Norway), Creative Kids (Sweden), Kings College (Spain), and more to come...

We'll be in direct contact with Harlequin Kindergarten in East Kilbride, Scotland. It is a multi-cultural nursery, which welcomes children from 6 weeks to 5 years old.

We are exchanging with teacher Yvonne and teacher Shelby with the goal of sharing our current projects and activities as well as putting the children in contact with their English speaking peers!

Through this exchange, children get a wonderful opportunity to gain a better understanding of how children just like them learn, play, and grow in different parts of the world.

Ideas for the weekend

The Musée des Arts et Métiers is offering a number of interesting ateliers to the young public. Amongst them: Ça vole, Ça roule, À toutes vapeurs avec Nougat!, Alma et la machine volante, Lucie et Lucien à travers les océans...

Practical information:

- Location: 60 Rue Réaumur, 75003 Paris
- Many dates available in May and June
- Reservation needed, on their website <https://www.arts-et-metiers.net> or by phone at 01 53 01 82 75

In September 2025 the Centre Pompidou will close its doors for a 5 years long restoration... Until then, you can enjoy the many initiatives it has to offer! From the "Galerie des enfants", to the "Atelier des enfants" you can choose between workshops and exhibition for all ages and tastes!

Practical information:

- All exhibitions are open until September 2025
- Location: Place Georges-Pompidou, 75004 Paris
- From the age of 6 months, up to 10 y.o.
- Prices vary depending on the activity

More information on their website: [https://](https://www.centrepompidou.fr/fr/visite/enfants-et-familles)

Intergenerational

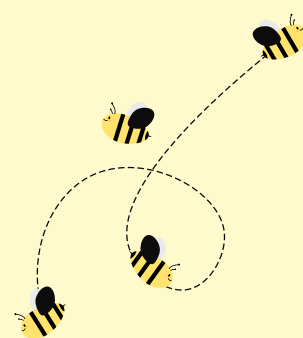

Spring is here, flowers are blooming and plants are sprouting! We joined in and planted some basil, mint, rosemary, lavender, sage and thyme in the company of the seniors of the residence "Procession-Quintinie".

Sustainable Development

This Spring plant the seeds of sustainability. Planting fresh seasonal flowers contributes positively towards climate change by bringing in more pollinators, creating wonderful compost, and being part of a vibrant ecosystem.

Some great choices are: Lavender (requires minimal care, reducing the need for excessive watering or chemical fertilizers); Black-Eyed Susan (its yellow petals and dark center attracts pollinators like butterflies and bees); Coneflowers, (another resilient and pollinator-friendly flower).
