What's new at Lily School Paris?

One of the aspects we're more proud of at Lily School Paris is the international soul of the school! Every year we welcome interns from all around the world through the international university Exchange ERASMUS and ERASMUS+ for Europe and countries nearby and IES Abroad for United States. They bring their culture, their experience and they are above all a human added value for the children as well as for the team. Human relations that last even after their experience with us at school.

Ideas for the weekend

The Jardin de Plantes has organized the 12th edition of the unmissable event Mille & une orchidées (A Thousand and One Orchids). Discover over 1000 m² of plant scenography, a true festival of colors and shapes in which hundreds of specimens of wild and horticultural orchids flourish!

Practical information:

- Location: Grandes Serres du Jardin des Plantes - 57 rue Cuvier, 75005 Paris
- From February 6 to March 10, 2025
- Open every day (except Tuesdays) from 10 a.m. to 6 p.m.
- Tickets: From €7 to €9

Sustainable Development

This month our students met the polar bear “Gigi”. Our new friend, just like our mascot the bee, is part of the Red List of the International Union for Conservation of Nature (IUCN). It’s marked as vulnerable, and therefore faces a high risk of extinction in the wild.

Working this topic with the children is a crucial step in helping saving endangered species; but there’s much more we can do: adopting a polar bear through an association or being mindful of our carbon footprint. Come on let’s go and do it!

Intergenerational

Collaboration and flowers: these are the key words of this month’s workshops at the residence “Procession-Quintinie”. Guided by Andrea from the association “Les amis d’Arty Garage” we created a winter landscape with the yellow mimosa flowers and branches of cypress. We are proud of the artistic result!

Kid's Corner

This February we immersed ourselves in the magic world of Eric Carle the American author and designer. We read some of his most well known books and discovered the world of the flowers and animals that are subject of the stories. We danced, played, painted and even organized a shadow show!

Spring break Kid's Corner week
14th - 18th April

SUBSCRIPTIONS are OPEN!

55 Rue Barruel, 75015 Paris
